The third quarter of fiscal year 2014 witnessed steady growth in all key indicators with the gross loan portfolio of the sector increasing by 7.7 percent to touch PKR 65.9 billion.

Growth in microcredit came on the back of the MFB peer group, which added 79,000 new borrowers and a portfolio of worth PKR 2.5 billion. Resultantly, the market share (in terms of active borrowers) of the MFB peer group grew from 39 percent to 41 percent. Khushhal Bank (KB) continues to drive the microcredit outreach among the MFB's and the sector as a whole. In the quarter under review, KB added 51,248 new borrowers and increased the sectors loan portfolio by PKR 1.4 billion. This increase was motivated by the agriculture sector, primarily on the back of loans distributed for the harvest of cotton which starts in July. Akhuwat was the second largest contributor to microcredit outreach by adding 40,000 new borrowers and a loan portfolio of worth PKR 546 million. During the quarter, Akhuwat expanded its outreach to cover two new districts (Rahimyar Khan and Mirpur Khas). The share of male borrowers witnessed an increase of 3 percent in the current quarter; mostly owing to the increase by KB (more than 75 percent of KB's borrowers are male). Overall, sector PAR (>30 days) deteriorated from 1.2% to 1.9% due to increase in provisioning by MFBs.

In terms of savings, the number of savers increased by 6.5 percent while the value of savings grew marginally by 1.2 percent. The insignificant increase in the value of savings was a result of a decline in the average saving balance - by 4.9 percent from PKR 5,172 to PKR 4,915 in the current quarter. The growth in the number of savers was solely driven by the MFB peer group which added 483,000 new depositors (an increase by 12 percent). On the other hand, growth in the value of deposits of the MFB peer group was modest and grew by only 1.0 percent. Tameer Bank (TMFB) was the largest contributor to active savers followed by NRSP Bank which added 329,330 and 79,158 new depositors respectively. FINCA MFB witnessed the greatest increase in the value of deposits (by PKR 516 million), surpassing NRSP Bank to become the fourth largest provider of micro-savings (in terms of value). During the quarter, the share of female savers soared by 7 percent - mainly owing to TMFB which introduced 960,000 new female depositors (an increase by 100 percent).

Micro-insurance also exhibited a positive trend in the third quarter of 2014 - policy holders increased by 5.7 percent while the sum insured depicted a healthy increase of 11.2 percent. The increase in micro-insurance outreach came on the back of NRSP Bank whose policy holders increased by 197,000 and sum insured by PKR 2.9 billion. During the quarter, NRSP Bank initiated health insurance coverage for the spouses of their clients - increasing the micro-insurance figures of the bank by twofold. Resultantly, for the first time, the share of health insurance policy holders (52 percent) exceeded the share of credit life policy holders (48 percent). NRSP Bank is now the third largest provider of micro-insurance (sum insured), surpassing FMFB and KF.

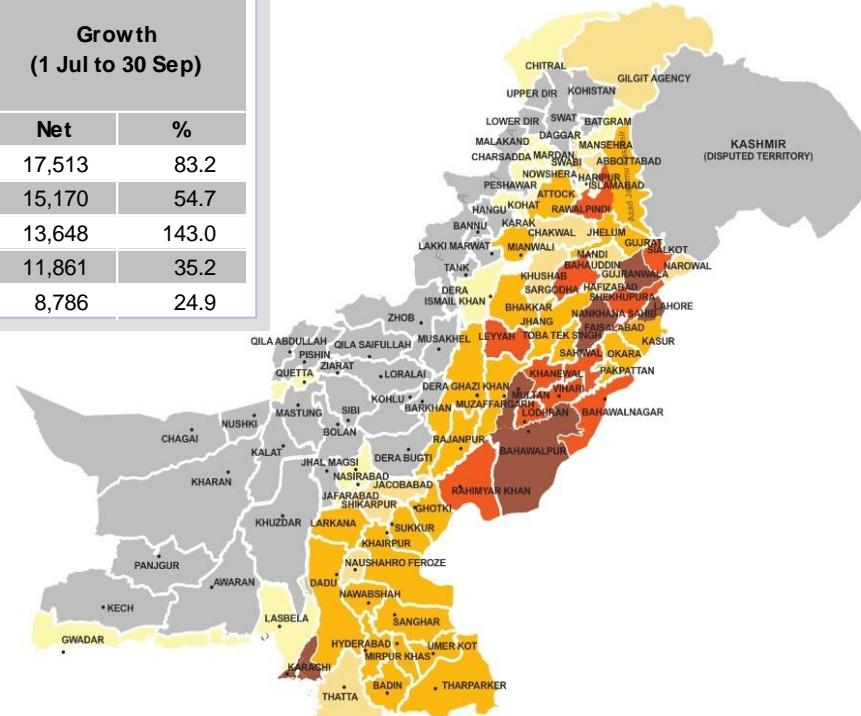

Overall, the penetration rate increased slightly from 11.5 percent to 11.8 percent in the third quarter, while the number of districts covered remained the same - currently standing at 94. The number of branches has increased by 71 due to an increase in the number of outlets by Akhuwat, which opened 40 new outlets, primarily in the province of Punjab.

Saving Methodology:

- Intermediation:** Public deposits used to finance an organization's loan portfolio. Only SBP-regulated MFPS (CFIs and MFBs) can accept and intermediate deposits from the general public.
- Mobilization:** MFPS not regulated by SBP (MFIs, NGOs, RSPs) can neither hold nor intermediate deposits from the general public. These organizations do however mobilize savings from their members/clients to place with licensed commercial banks.
