The second quarter of 2015 was dominated by growth in the value of savings which soared by PKR 9.3 billion to cross the PKR 50 billion mark.

The growth in savings came on the back of MFBs whose depositors increased by a staggering 40 percent and the value of deposits by 22 percent. Resultantly, the market share of the MFB peer group in terms of active savers increased to 78 percent compared to 72 percent in the previous quarter. Tameer Bank (TMFB) and Khushhal Bank (KB) were the largest contributors in terms of value of savings; TMFB added deposits worth of PKR 2.6 billion, whereas, KB increased its deposit base by PKR 2.5 billion. The growth in the value of deposits by KB was primarily driven by their saving accounts and term deposits, whereas, TMFB continues to capitalize on its branchless banking platform to open new accounts. Moreover, TMFB (with 7.8 million depositors) now accounts for 59 percent of the total active savers of the sector. Among the non-bank MFPs, only NRSP was able to show any significant contribution to active savers by adding 50,000 new savers.

Micro-credit also exhibited a positive trend in the second quarter of 2015 - active borrowers grew by 5.6 percent from 3.2 million borrowers to 3.5 million borrowers, whereas, the gross loan portfolio (GLP) posted growth of 9.8 percent to close at PKR 81 billion. During the quarter, Akhuwat was the largest contributor in terms of active borrowers by financing 50,000 new clients - primarily in the agriculture and services sector. The growth in GLP was fueled by the MFB peer group which added PKR 4.2 billion worth of portfolio, mainly owing to larger loan sizes. KB depicted the greatest increase in its loan book (by PKR 1.5 billion), which can be attributed to the newly introduced MSME products, as well as, the introduction of a running finance (RF) facility to tap the high end market. Among the RSPs, NRSP and SRSO were the most prominent contributors to micro-credit outreach on the back of short term seasonal loans provided for the harvest of rice and wheat crops. Overall, sector PAR (>30 days) decreased from 1.7 percent to 1.3 percent due to improvement in recoveries by MFB and RSP peer group..

In terms of micro-insurance, the number of policy holders grew marginally by 2.2 percent, whereas, the total sum insured increased by 11 percent in the current quarter. The growth in micro-insurance was also dominated by the MFB peer group which added 92,000 new policy holders and sum insured of worth PKR 4.8 billion. This increase can be supported by the growth in micro-credit outreach of the MFB peer group (mentioned above), as most borrowers are provided with credit and/or health insurance coverage. Among the MFIs, Akhuwat witnessed the greatest increase in the number of policy holders (by 50,000) followed by Kashf Foundation (by 33,000). The sector continues to be dominated by only two types of insurance policies; health and credit life, each maintaining a market share of 52 percent and 48 percent respectively.

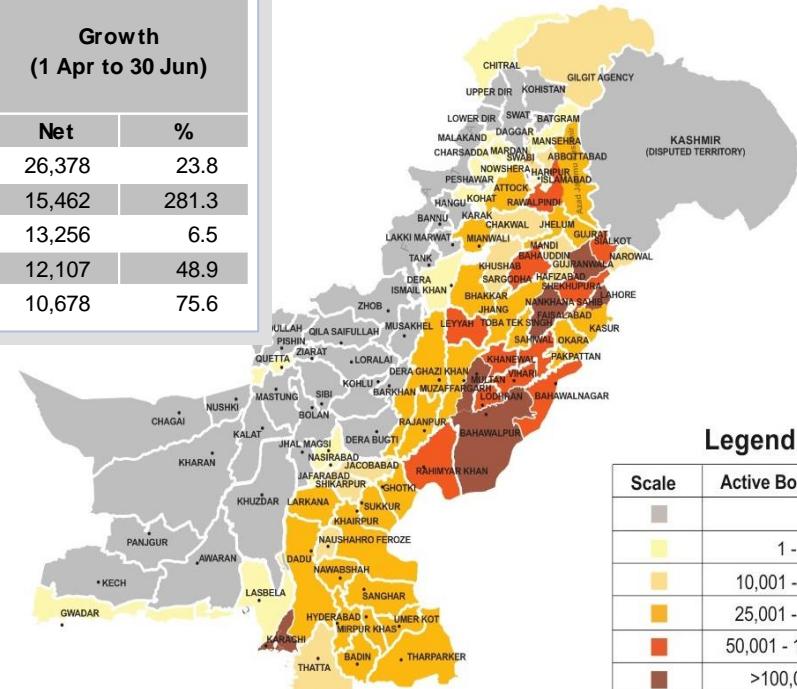

The penetration rate of the sector has increased from 12.1% to 12.8% due to an increase in overall outreach. Geographically, the number of districts has increased from 96 to 98 - Akhuwat has set up its outlets in the districts of Bannu and Lakki Marwat in the province of KP. Moreover, the total number of branches has increased by 141, mainly owing to NRSP which added 47 new branches in the provinces of Punjab and Sindh.

Saving Methodology:

- Intermediation:** Public deposits used to finance an organization's loan portfolio. Only SBP-regulated MFPS (CFIs and MFBs) can accept and intermediate deposits from the general public.
- Mobilization:** MFPS not regulated by SBP (MFIs, NGOs, RSPs) can neither hold nor intermediate deposits from the general public. These organizations do however mobilize savings from their members/clients to place with licensed commercial banks.
